Spalević Velibor	Učesnik: Velibor Spalević Učešće na panelima i okruglim stolovima Prof. dr Velibor Spalević učestvovao je na konferenciji „Budućnost voda u doba klimatskih promjena”, održanoj povodom Svjetskog dana voda, 21. marta 2025. godine u Podgorici, u organizaciji Uprave za vode Crne Gore. U okviru događaja, prof. Spalević je održao predavanje pod naslovom: „Vodni resursi Crne Gore kroz vrijeme: Od ledenog doba do savremenih klimatskih izazova”, gdje je govorio o značaju glečera i vodnih resursa za Crnu Goru kroz istorijsku i savremenu perspektivu. Poseban naglasak stavio je na ulogu glečera u oblikovanju pejzaža, očuvanju ekosistema i globalnom vodnom balansu. Istakao je da su Debeli Namet na Durmitoru i glečeri u Prokletijama posljednji ostaci ledenog doba na Balkanu i dragocjeni indikatori klimatskih promjena, čije povlačenje jasno svjedoči o porastu globalnih temperatura. Naglasio je potrebu hitnog djelovanja u borbi protiv klimatskih promjena i interdisciplinarnog pristupa naučnih istraživanja, koji obuhvata ekologiju, klimatologiju, geologiju, biotehničke nauke i hidrologiju. Prof. Spalević je, zajedno sa drugim panelistima, učestvovao u završnoj diskusiji na temu: „Glečeri kao indikatori klimatskih promjena: Šta nam priroda poručuje?”, gdje je ukazao na globalnu važnost glečera i njihovu lokalnu ulogu u stabilnosti vodnih resursa Crne Gore. Njegove ključne poruke bile su usmjerene na: očuvanje preostalih ledeno-snežnih zona u Crnoj Gori, razumijevanje glečera kao prirodnih rezervoara slatke vode, nužnost globalne saradnje u smanjenju emisija stakleničkih gasova, i važnost održivog upravljanja vodnim resursima za budućnost. Kroz svoje izlaganje i diskusiju, prof. dr Velibor Spalević dao je značajan doprinos jačanju svijesti o klimatskim izazovima i strateškim pravcima zaštite vodnih resursa u Crnoj Gori i regionu.
